

INTERNATIONAL
PATENTED

FlowMir®

Disposable Turbine Flowmeter
MIR exclusive product
International patent

Each turbine, which includes a cardboard mouthpiece, has been individually factory tested with a computerized system

It comes standard in a dispenser of 50 pcs

FlowMIR® is an inexpensive alternative to a costly reusable flowmeter and replaces the need for an antibacterial filter

A full Spirometry session can be performed, including a Bronchial Challenge and POST Bronchodilator test

For each patient, after the Spirometry test, both turbine and mouthpiece are thrown away

Two types of turbine
flowmeters available:

MIR Disposable Turbine

MIR Reusable Turbine

The reusable turbine is manufactured with high-tech materials – including special alloys and synthetic sapphires – for durability while retaining the features of reproducibility and accuracy even after many years of use

Comfortable
Packaging

Singularly Tested
and Packed

Eliminates staff
clean-up time

No Sterilisation

No Calibration

No Cross
Contamination

No Antibacterial
Filter
